

Microsoft Protégé 2020

Protégé is a case competition run by Microsoft for tertiary students to make an impact in their local Australian Community

"Our mission is to empower every person and every organisation on the planet to achieve more. As technology disrupts every industry, we have an unprecedented opportunity to make a difference in the lives of everyone"

- Satya Nadella, Microsoft CEO

Protégé is open to all undergraduate university and TAFE students currently enrolled in an Australian tertiary institution for students in any faculty.

Visit this [link](#) for more details, including the competition brief. Submissions close 12.00pm (AEST) 6 April 2020.

Considerations around COVID-19

In light of the recent events surrounding COVID-19, Microsoft has suspended face to face workshops. The health and safety of the community continues to be of highest priority, and as such, content for the case competition will be shared with contestants virtually.

Updates for the event will be shared through a Facebook Group for the page which can be found [here](#).
